# WORLD WITHIN REACH

## OUR TAGLINE IN ACTION

In tailoring our collective success, “World Within Reach” is a torch for the Subic-Clark Alliance for Development (SCAD) to carry across the nation and worldwide. It is a battle cry built in perseverance, pride, and a tradition of excellence in our strategic business landscape, providing access to the fulfillment of global potential.

Not only does the Subic-Clark corridor materialize investments, but it also unlocks doors for expansion to other parts of the country and abroad with the ease of the connectivity from the Clark International Airport and the Port of Subic Bay and with the network from being part of the national umbrella of investment promotion agencies (IPAs). Dreaming becomes a thing of the past as the SCAD opens a path to endless opportunities.

## WHY SUBIC-CLARK CORRIDOR?

A strategic geographical position with excellent air, sea, and land connectivity which are primed to be premiere gateways, offering a whole range of international and local connections.

A convergence of hubs, thus your business will enjoy the competitive advantage of locating in an all-in-one investment haven.

A one-stop-shop offering simplified, streamlined, automated procedures for visas and permits.

A large pool of young, world-class human capital with a high aptitude for learning, proficiency in English, skills matching your needs, and motivation to excel.

Expansions built on the momentum of the present administration’s Build, Better, More Infrastructure program.

## ABOUT SCAD

Subic-Clark Alliance for Development or SCAD is an intermediate structure under the Office of the President of the Philippines, mandated to develop the Subic-Clark Corridor into a world-class mega-logistics hub serving as the country’s global gateway to the Asia Pacific Region by establishing a stable business and economic policy climate in the corridor and customer-friendly rules and regulations free from bureaucratic red tape.

## OUR VISION

A world-class mega-logistics hub serving as the country’s global gateway to the Asia Pacific Region and spurring the socio-economic growth and development of Central Luzon.
